

The Hasa Pool Products personnel were again able to provide the perfect NASCAR race experience for their clientele at the Infineon Raceway (Sonoma, California) on June 20, 2009. Over six hundred Hasa customers filled the huge hospitality tent that was strategically located in the infield of turn two.

After receiving their Moses Smith T-shirt and hat, the crowd enjoyed a buffet style lunch. The #16 Hasa Pool Products / White Flyer Toyota Camry had qualified eleventh in the field of forty. The Hasa crowd created quite a roar when Moses led the race.

"This is a great track for the HASA Pool Products fans; they are really into the road courses. We had 600 plus Hasa customers in the stands all around the track. It was great to have so much support. I want to thank them for coming out. It was a beautiful day in Sonoma. I wish we could have had a better finish for them." Moses finished in 29th position, ten laps down.

After the race, the fan's favorite driver made the rounds for a personal meet and greet session. Moses signed autographs and discussed his disappointing finish with his fans. Hasa Hospitality would like to thank Lisa and Edic, from the [Liquid Shade](#) company. They were kind enough to supply six of their remarkable portable and self-contained misting systems to reduce the outdoor heat. The units were easy and effective!
